## THERAPY SERVICES

Recently undergone surgery or had an illness or fall that has left you feeling under the weather? We have a beautiful rehab-only neighborhood. Rehab can also be done on an out-patient basis. Frequent referrals from area physicians to our in-patient and out-patient services are a reflection of the success of our physical, speech, and occupational therapy programs. Brookside is also excited to announce we are a Certified Anodyne Therapy Center.

Brookside offers:

- Occupational therapy
- Physical therapy
- Speech therapy

## OUR NEIGHBORHOODS

We have created three different neighborhoods: Cottonwood Lane, Evergreen Plaza, and Lilac Lane. Each of these three neighborhoods have their own dining room and a state-of-the-art bath and spa.

Brookside staff are trained to give residents choices during their day. Residents can choose when to get up in the morning and when to go to bed at night. Our dietary staff offers a variety of options at each meal. There are different activities residents can choose from each day. Additionally, we have spa tubs, so residents have a say in how they bathe. *We find giving residents choices is very empowering which gives them a sense of independence and autonomy.*
